Entrepreneurship in Sub-Saharan Africa-John O. Ogbor 2009 I teach a graduate course called the History and Culture of the Information and Communications Industry. This book is a result of that course. It shows how the world has moved from primitive means of communication to the integrated multi-media situation we are in today. Its concentration is on the fields of journalism, telecommunications, broadcasting, and computing. Emphasis is placed on the leaders of the areas of interest and the political and cultural surroundings that encouraged or discouraged growth of the industry. One of the leaders mentioned is that lucky fellow Johann Gutenberg. Gutenberg certainly built a press that used movable type, but he became famous because of an early confluence of technology. At the time of his work good cheap paper became available from Italy, and longer lasting inks were developed in India. The technology of printing took off because quality and economy came together. We also are lucky that we know so much about Gutenberg because the Germans had such a good legal record keeping system in the sixteenth century and Mr. G. had so many run-ins with the law. Four hundred years later the confluence of satellite broadcasting and color printing techniques enabled another printing leader, Allen Neuharth, to produce a national newspaper called USA Today. This book mentions several lucky incidents or "what ifs" in the computer industry. For example, where would Microsoft be if Gary Kildall of Digital Research Corp. hadn't taken off to fly his airplane when the IBMers came to invite him to build the operating system for their new PC? Or before that, what if Charles Ramlett Flint had reconsidered hiring a convicted felon to run the Computing-Tabulating Recording Company when he brought on Thomas Watson Sr. who turned it into IBM? Or before that, what if Charles Babbage had and the money and the machinery to do the fine grinding work on the Analytical Engine. Politics, especially represented by the US Government, have had many strange or unplanned effects on the IC industry throughout the years. The fact that the US Congress wouldn't fund the telegraph system that Samuel Morse wanted to build set the precedent for a private telecommunication industry in the US leading to AT&T becoming the most valuable stock in the world. The desire to keep those nasty British from controlling the US

Optimizing Regional Development Through Transformative Urbanization-Benna, Umar G. 2018-08-10 Assisted by globalization and the rapid application of advanced technologies, the transformative power of urbanization is being felt around the world. The scale and the speed of existing and projected urbanization poses several challenges to researchers in multiple disciplines, such as computer science, engineering, and the social sciences. Optimizing Regional Development Through Transformative Urbanization provides emerging research exploring the theoretical and practical aspects of applications within urban growth interventions. It also explores the strategies for new urban development tools such as the rise of new platforms for digital activities, concepts of sharing economy, collaborative economy, crowdsourcing, and crowdfunding. Featuring coverage on a broad range of topics such as cryptocurrencies, public-private partnership, and urban governance, this book is a vital reference for city development planners, decision makers, policymakers, academicians, researchers, and professionals seeking current research on the delivery of transformative urbanization changes.

Doing Public Good?-R. Pablo Guerrero O. 2017-07-05 This book examines the contributions of non-public organizations, such as foundations, philanthropies, charities, non-governmental organizations, private businesses, and entrepreneurs to public goods and services. Too often the impact of the contributions of such private actors are overlooked. However, they are playing an increasing role in meeting societal needs across the developing world. Doing Public Good? lays out key elements that need to be considered in evaluating the net results achieved by these private actors. It uses case studies and analysis to show how to answer such questions as: Is it working? How do they and the public know they are doing good? And how to improve? Such questions are particularly important since little is known about the net results of private avenues for delivering public value. The contributors conclude that "doing good" organizations need to be more transparent and accountable regarding their operations and achievements. The book suggests perspectives on how better monitoring and evaluation systems can improve their accountability.

India and Africa's Partnership-Ajay Kumar Dubey 2015-09-21 This book demonstrates the changing dynamics of India's engagement with Africa, focusing on trade, investment, official development assistance, capacity building activities and the diaspora. It also examines its impact at the economic, political and societal levels with respect to governance, democratic structures, education and health. India has competitive edge of historical goodwill and it is one of the most important countries engaging Africa in the 21st Century. For Africa, India has emerged from an aid recipient country to a major aid provider but on a basis of partnership model. The book provides a contemporary analysis and assessment of Indo-Africa relations, bringing together contributions from the Global South and from the North that explore whether the relationship is truly 'mutually beneficial'.

Handbook of the International Political Economy of the Corporation-Andreas Nölke 2018-09-28 Over the past few decades, corporations have been neglected in studies of international political economy (IPE). Seeking to demystify them, what they are, how they behave and their goals and constraints, this Handbook introduces the corporation as a unit of analysis for students of IPE. Providing critical discussion of their global and domestic power, and highlighting the ways in which corporations interact with each other and with their socio-political environment, this Handbook presents a thorough and up-to-date overview of the main debates around the role of corporations in the global political economy.

Africa's Business Revolution-Acha Leke 2018-10-30 The Definitive Guide to Doing Business in Africa For global and Africa-based companies looking to access new growth markets, Africa offers exciting opportunities to build large, profitable businesses. Its population is young, fast-growing, and increasingly urbanized--while rapid technology adoption makes the continent a fertile arena for innovation. But Africa's business environment remains poorly understood; it's known to many executives in the West only by its reputation for complexity, conflict, and corruption. Africa's Business Revolution provides the inside story on business in Africa and its future growth prospects and helps executives understand and seize the opportunities for building profitable, sustainable enterprises. From senior leaders in McKinsey's African offices and a leading executive on the continent, this book draws on in-depth proprietary research by the McKinsey Global Institute as well as McKinsey's extensive experience advising corporate and government leaders across Africa. Brimming with company case studies and exclusive interviews with some of Africa's most prominent executives, this book comes to life with the vibrant stories of those who have navigated the many twists and turns on the road to building successful businesses on the continent. Combining an unrivalled fact base with expert advice on shaping and executing an Africa growth strategy, this book is required reading for global business executives looking to expand their existing operations in Africa--and for those seeking a road map to access this vast, untapped market for the first time.

Africa-to-Africa Internationalization-Ifedapo Adeleye 2016-09-24 Highlighting an important emerging trend in FDI to Africa, this book consists of important contributions focusing on an increase in trade and investment between African countries. An area that until now has received little attention, this volume aims to define the key issues and explores the challenges and outcomes that have characterized Africa-to-Africa internationalization, providing guidance on directions for future research. Africa-to-Africa Internationalization includes both conceptual and empirical contributions, illustrating the practical issues in intra-African trade and investment. Providing readers with a deep sense of the realities and challenges of cross-border investments within the region, the cases included in the book are useful pedagogical materials for faculty members interested in teaching international business in the African context.

Housing Market Dynamics in Africa-El-hadj M. Bah 2018-03-12 This open access book utilizes new data to thoroughly analyze the main factors currently shaping the African housing market. Some of these factors include the supply and demand for housing finance, land tenure security issues, construction cost conundrum, infrastructure provision, and low-cost housing alternatives. Through detailed analysis, the authors investigate the political economy surrounding the continent's housing market and the constraints that behind-the-scenes policy makers need to address in their attempts to provide affordable housing for the majority in need. With Africa's urban population growing rapidly, this study highlights how broad demographic shifts and rapid urbanization are placing enormous pressure on the limited infrastructure in many cities and stretching the economic and social fabric of municipalities to their breaking point. But beyond providing a snapshot of the present conditions of the African housing market, the book offers recommendations and actionable measures for policy makers and other stakeholders on how best to provide affordable housing and alleviate Africa's housing deficit. This work will be of particular interest to practitioners, non-governmental organizations, private sector actors, students and researchers of economic policy, international development, and urban development.

Global Supply Chain and Operations Management-Dmitry Ivanov 2016-07-20 This textbook presents global supply chain and operations management from a comprehensive perspective, combining value creation networks and interacting processes. It focuses on the operational roles in the networks and presents the quantitative and organizational methods needed to plan and control the material, information and financial flows in the supply chain. Each chapter of the book starts with an introductory case study. Numerous examples from various industries and services help to illustrate the key concepts. The book explains how to design operations and supply networks and how to incorporate suppliers and customers. As matching supply and demand is a core aspect of tactical planning, the book focuses on it before turning to the allocation of resources for fulfilling customer demands. Providing readers with a working knowledge of global supply chain and operations management, this textbook can be used in core, special and advanced classes. Therefore, the book targets a broad range of students and professionals involved with supply chain and operations management. Special focus is directed at bridging theory and practice.

Principles of Management-David S. Bright Principles of Management is designed to meet the scope and sequence requirements of the introductory course on management. This is a traditional approach to management using the leading, planning, organizing, and controlling approach. Management is a broad business discipline, and the Principles of Management course covers many management areas such as human resource management and strategic management, as well behavioral areas such as motivation. No one individual can be an expert in all areas of management, so an additional benefit of this text is that specialists in a variety of areas have authored individual chapters.

Product Strategy for High Technology Companies-Michael McGrath 2000-11-02 One of the key determinants of success for today's high-technology companies is product strategy—and this guide continues to be the only book on product strategy written specifically for the 21st century high-tech industry. More than 250 examples from technological leaders including IBM, Compaq, and Apple—plus a new focus on growth strategies and on Internet businesses—define how high-tech companies can use product strategy and product platform strategy for competitiveness, profitability, and growth in the Internet age.

Exploring Corporate Strategy-Gerry Johnson 2009-12 Over 600,000 students worldwide have used this best-selling book to understand and explore strategic management through their academic and professional careers. Exploring Corporate Strategy has established a reputation as a pre-eminent textbook in its field, based upon the expertise of authorship, range of cases, depth of commentary and wealth of supporting resources. The 7th edition builds on these strengths with the introduction of a new author, Richard Whittington. The enhanced coverage of international strategy and the resource-based view, as well as improved visual presentation, ensure that.

Internal Security Management in Nigeria-Oshita O. Oshita 2019-07-23 This book explores the disturbing dimensions of the problem of insecurity in Nigeria, such as herdsmen violence, the Boko Haram insurgency, cybercrime, militancy in the Niger Delta, communal conflict and violence, as well as police corruption. It offers a comprehensive discussion of the theoretical foundations of internal security, the threats to internal security, the role of formal and informal agencies in internal security management and the challenges of internal security management.

Niche Diplomacy-Andrew F. Cooper 2016-07-27 An examination of the nature of middle power diplomacy in the post-Cold War era. As the rigid hierarchy of the bipolar era wanes, the potential ability of middle powers to open segmented niches opens up. This volume indicates the form and scope of this niche-building diplomatic activity from a bottom up perspective to provide an alternative to the dominant apex-dominated image in international relations.

Economic Development in Africa Report 2019-United Nations Conference on Trade and Development (UNCTAD) 2019-06-26 The African Continental Free Trade Area (AfCFTA) represents a historic opportunity for the continent to boost intra-African trade and accelerate structural transformation. However, this relies on a critical policy instrument: the effective implementation of preferential trade liberalization among the AfCFTA members. Whether in practice African firms will utilize tariff preferences under the AfCFTA depends on a critical factor: rules of origin (RoO) and the net benefits of complying with them. This report argues for the adoption of flexible RoO and a strengthening of institutional capacities to ensure an impartial, transparent, predictable, consistent and neutral implementation of agreed RoO.

What Makes a Leader? (Harvard Business Review Classics)-Daniel Goleman 2017-06-06 When asked to define the ideal leader, many would emphasize traits such as intelligence, toughness, determination, and vision—the qualities traditionally associated with leadership. Often left off the list are softer, more personal qualities—but they are also essential. Although a certain degree of analytical and technical skill is a minimum requirement for success, studies indicate that emotional intelligence may be the key attribute that distinguishes outstanding performers from those who are merely adequate. Psychologist and author Daniel Goleman first brought the term "emotional intelligence" to a wide audience with his 1995 book of the same name, and Goleman first applied the concept to business with a 1998 classic Harvard Business Review article. In his research at nearly 200 large, global companies, Goleman found that truly effective leaders are distinguished by a high degree of emotional intelligence. Without it, a person can have first-class training, an incisive mind, and an endless supply of good ideas, but he or she still won't be a great leader. The chief components of emotional intelligence—self-awareness, self-regulation, motivation, empathy, and social skill—can sound unbusinesslike, but Goleman found direct ties between emotional intelligence and measurable business results. The Harvard Business Review Classics series offers you the opportunity to make seminal Harvard Business Review articles a part of your permanent management library. Each highly readable volume contains a groundbreaking idea that continues to shape best practices and inspire countless managers around the world—and will have a direct impact on you today and for years to come.

Migrants and Strangers in an African City-Bruce Whitehouse 2012-03-14 In cities throughout Africa, local inhabitants live alongside large populations of "strangers." Bruce Whitehouse explores the condition of strangerhood for residents who have come from the West African Sahel to settle in Brazzaville, Congo. Whitehouse considers how these migrants live simultaneously inside and outside of Congolese society as merchants, as Muslims in a predominantly non-Muslim society, and as parents seeking to instill in their children the customs of their communities of origin. Migrants and Strangers in an African City challenges Pan-Africanist ideas of transnationalism and diaspora in today's globalized world.

The Legend of Morris Cerullo-Morris Cerullo 2016-08-02 Morris Cerullo grew up a tough, troubled, rebellious bully. Before he was 13, life had broken him inside so badly that he devised a plan to kill himself. He might have done it, but as he lingered on the window ledge outside his bedroom, he was divinely, supernaturally rescued.

101 Mission Statements from Top Companies-Jeffrey Abrahams 2013-10-02 Ben & Jerry's has one. So do Tiffany's and Smucker's and Microsoft. It doesn't matter whether you're a small start-up or one of the biggest players in corporate America. A clear statement of intent not only inspires a sense of overall purpose for a business or nonprofit, it serves as a practical focus for individuals within the organization. It can even provide an actual blueprint for a company's future and, ultimately, its success. Selected from among America's most successful corporations and recognizable brands, these statements vary widely in style, length, and language. However, they all share a universal vision of excellence that includes superiority in their fields, respect for and responsibility toward employees and clients, dedication to stated business goals, and community-oriented values. Additionally, 101 MISSION STATEMENTS instructs the new or future entrepreneur in crafting and customizing a mission statement that will inspire, motivate, and meet the specific needs and aspirations of the organization and its members. From the Trade Paperback edition.

Cultural Renewal in Cambodia-Philippe Peycam 2020-09-07 This book narrates the establishment of a cultural project in post-war Cambodia. It depicts a country at the crossroads of conflicting imaginaries, and shows, through the Centre for Khmer Studies' story, how the neoliberal agenda of 'northern' academic institutions effectively constrain alternative 'southern' visions of development.

Frontier-Gavin Serkin 2015-04-27 Get ahead of emerging markets with top-performer picks for up-and-comers Frontier helps investors successfully navigate markets that are yet to "emerge," with expert advice on spotting opportunities and minimizing risks. With first-hand insights into frontier markets as we travel with big-name fund managers from Mark Mobius to Morgan Stanley, this practical guide ranks countries, stocks and bonds on a five- to ten-year horizon to steer investors toward the most promising destinations. Written in a compelling and accessible travelogue narrative, each chapter covers a specific country, providing invaluable market analysis and a deep understanding of the political, economic, and social background of those most likely to outperform. The key focus is on fresh ideas, based on the assessments from top performing money managers when meeting challenges, hostilities or adversity, and observations after interviewing high-level government officials and executives. With advanced economies shackled by debt and sluggish growth, investors are increasingly turning to emerging markets for better returns. Yet the money managers who came out on top in China, India, and Brazil are now focusing their attention on markets that have not yet emerged. This book applies the perspective of ten of the most successful fund managers in their field, providing an unparalleled guide to assessing investment potential in places better known for conflict, poverty and corruption. · Discover which markets have the best prospects, and which are potential disasters · Analyse individual markets by metrics including macro data, global relative value comparisons of stocks and bonds, buy/ sell triggers, and more · Learn which industries, stocks and bonds should be considered in each market · Examine each country through real-life on-the-ground assessment of corruption, conflict and other risks as well as inspirational breakthroughs that signal opportunities This is a practical manual for all investors - whether students or professionals - wanting to get to know the most promising new markets while avoiding the pitfalls. A must-read for corporate executives seeking global capital, Frontier provides a better understanding of the changing international investment dynamic. Robin Wigglesworth, FT: "Invaluable."

Mark Mobius, Templeton: "I love it! Beautiful descriptive writing." Aliko Dangote, Wealthiest African: "Captivating tales, masterly woven."

Ethical Leadership-C. Millar 2010-12-08 Presents analysis, examples, and ideas about the future in a lively yet academically robust format. Africa's Billionaires-Bishop Chris 2017-08-17 As Forbes magazine heads towards its centenary in 2017, this is a timely look at how the work of entrepreneurs can influence lives in Africa and create the jobs that empty state coffers can no longer afford. Written by the founder of Forbes Africa, this is a masterclass on how the brightest and most successful entrepreneurs across Africa made their billions. Chris Bishop gets up close and personal with the biggest names in business on the continent: Aliko Dangote, Patrice Motsepe, Nicky Oppenheimer, Christo Wiese and Stephen Saad, among others. These are the stories of how they not only survived, but thrived, in the fast and furious world of African business: the penniless priest who became a steel baron; the barefoot apple-seller who turned into a mining millionaire; the man who shared a hut with cattle but ended up a billionaire; the respected millionaire who went from running dice games and dealing drugs to running a city. This is a rich tapestry of stories about the super-wealthy and the wise, told with wit and heart.

Stylistics-Lesley Jeffries 2010-09-30 An introduction to the study of style in language, offering practical advice on how to stylistically analyse texts.

Culture and Crisis Communication-Amiso M. George 2017-09-18 Culture and Crisis Communication: Cases from Nonwestern Societies focuses on trending areas of interest such as globalization and the emerging economic powers in the form of the BRIC countries-- Brazil, Russia, India, and China. It analyzes crisis not just within a single country perspective, but from a cross-cultural and cross-country perspective--such as how a crisis in one country may affect another. The key is to identify and discuss how politics, culture, religion and other social issues affect crisis communication and management, and lessons that organizations that wish to operate or are operating in those cultures could use in preparing and managing crisis. The book is divided into three sections. The first is an introduction on culture and crisis communication. The next chapters analyze case studies, the intra-cultural and trans-boundary crisis communication. Each chapter examines how cultural impacts communication and response to crisis, using a case study or two to illustrate a point.

The New Corporate Accountability-Doreen McBarnet 2009-08-06 The adoption by companies of Corporate Social Responsibility (CSR) policies is routinely characterised as voluntary. But if CSR is self-governance by business, it is self-governance that has received a firm push from external social and market forces, from forces of social accountability. Law is also playing a more significant role than the image of CSR suggests, and this legal accountability - the focus of the book - is set to increase. Legal intervention should not, however, be seen as making social accountability redundant. Wider ethical standards and social and market forces are also necessary to make legal regulation effective. Law is being brought into play in innovative and indirect ways. The initiative lies as much with private organizations as with the state. At the same time governments are using social and market forces to foster CSR. In the context of corporate social responsibility, a new, multi-faceted, corporate accountability is emerging.
