Braxton Bragg-Earl J. Hess 2016-09-02 As a leading Confederate general, Braxton Bragg (1817–1876) earned a reputation for incompetence, for wantonly shooting his own soldiers, and for losing battles. This public image established him not only as a scapegoat for the South's military failures but also as the chief whipping boy of the Confederacy. The strongly negative opinions of Bragg's contemporaries have continued to color assessments of the general's military career and character by generations of historians. Rather than take these assessments at face value, Earl J. Hess's biography offers a much more balanced account of Bragg, the man and the officer. While Hess analyzes Bragg's many campaigns and battles, he also emphasizes how his contemporaries viewed his successes and failures and how these reactions affected Bragg both personally and professionally. The testimony and opinions of other members of the Confederate army—including Bragg's superiors, his fellow generals, and his subordinates—reveal how the general became a symbol for the larger military failures that undid the Confederacy. By connecting the general's personal life to his military career, Hess positions Bragg as a figure saddled with unwarranted infamy and humanizes him as a flawed yet misunderstood figure in Civil War history.

Advances in Cryogenic Engineering-K. Timmerhaus 2012-12-06 The First International Cryogenic Materials Conference (ICMC) provided a new forum for the presentation of low-temperature materials research. The confer ence, held in conjunction with the 1975 Cryogenic Engineering Conference, provided materials research personnel with excellent exposure to current develop ments in the cryogenics field and beneficial interactions with designers of cryogenic systems. Because of the large response to a late call for papers, the enthusiasm and encouragement at the meeting, and the wide spectrum and high quality of papers, the Second International Cryogenic Materials Conference is being planned along with the 1977 Cryogenic Engineering Conference for Boulder, Colorado, in the summer of 1977. The success of the First International Cryogenic Materials Conference was certainly in large measure due to the excellent hospitality of our Canadian hosts, the Royal Military College of Canada and Queen's University in Kingston, Ontario. In particular, the efforts of A. C. Leonard and his staff ensured an excellent conference and a pleasant and memorable visit to Canada. The Cryogenic Engineering Conference Board was both generous and skillful in helping to initiate this new conference and their guidance and acceptance is gratefully acknowledged. The Cryogenic Engineering Conference program chairman, M. J. Hiza, greatly facilitated the interaction for the two conferences and provided valuable assistance in generat ing a workable program. The proceedings of the 1975 Cryogenic Engineering Conference are published as Volume 21 of the Advances in Cryogenic Engineering and include many papers indicating innovative use of new cryogenic materials properties data.

The Law and Harry Potter-Jeffrey E. Thomas 2010 This volume considers the depiction of law and legal institutions in J.K. Rowling's Harry Potter novels. It contains more than twenty chapters by legal academics from the U.S. and abroad. The chapters are organized in five sections: Legal Traditions and Institutions, Crimes and Punishments, Harry Potter and Identity, the Wizard Economy, and Harry Potter as an Archetype. Some chapters analyze the way law and legal institutions are portrayed, and what these portrayals teach us about concepts such as morality, justice, and difference. Other chapters use examples from the narratives to illustrate or analyze legal issues, such as human rights, actual innocence, and legal pedagogy. The volume is suitable for undergraduate or law school courses, and will be of interest to those Harry Potter fans who also have an interest in law and the legal profession.

Antifouling Compounds-Nobuhiro Fusetani 2006-10-11 Awareness of the dangers of toxic components in antifouling coatings has raised interest in the potential for nontoxic alternatives. Marine organisms from bacteria to invertebrates and plants use chemicals to communicate and defend themselves. This book explores natural based antifoulants, their ecological functions, methods of characterisation and possible uses in antifouling. The text takes on the challenge of identifying such compounds, designing sustainable production and incorporating them into antifouling coatings.

Who's Who in Plastics Polymers, First Edition-James P. Harrington 2000-05-09 This is the first edition of a unique new plastics industry resource: Who's Who in Plastics & Polymers. It is the only biographical directory of its kind and includes contact, affiliation and background information on more than 3300 individuals who are active leaders in this industry and related organizations. The biographical directory is in alphabetical order by individual name. After each individual name, current affiliation and contact information is provided. This includes job title, full name of affiliation (e.g., business, university, association, research institute), business address, and electronic contacts-telephone, fax, e-mail and Web site. Home addresses and contacts are also provided for most of the entries. In the biographical summary section for each individual, the following information is provided: date and place of birth, education and educational achievements, work experience including company or other organization names, positions held and time periods. Also included in this section are the number of patents awarded, articles, and book chapters authored, and conference sessions chaired. Other information includes titles of books edited or written by the individual, listing of conferences where the person had a leadership position, and listing of memberships and positions held in professional organizations. Finally, professional and civic awards are listed. Indexes provide listings of individuals by company or other organization name, and also by geographical location. Who's Who in Plastics & Polymers is now published in a limited edition of 1,000 copies. This edition will not be reprinted. To be sure of receiving your copy, please act now. Information on ordering follows sample pages on the reverse.

Electroconvulsive and Neuromodulation Therapies-Conrad M. Swartz 2009-03-02 Electroconvulsive therapy (ECT) is a psychiatric treatment involving the induction of a seizure through the transmission of electricity in the brain. Because of exploitation movies and greatly heightened drug company promotional activities ECT was used less frequently in the 1980s and 1990s. Eventually these movies were understood as unrealistic. Now these drugs are increasingly recognized as dangers to body health. Because of recent refinements and a far better scientific understanding of the clinical procedures and mechanisms underpinning ECT, this treatment modality has seen a resurgence in use and widespread appreciation of its safety. This book is the new definitive reference on electroconvulsive and neuromodulation therapies. It comprehensively covers the scientific basis and clinical practice of ECT as well as comparisons between ECT and medication therapies including the new generation of antipsychotic drugs. It also provides readers with administrative perspectives and specific details for the management of this modality in clinical practice. The new forms of nonconvulsive electrical and magnetic brain stimulation therapy are also covered in detail, in a separate section. The chapter authors are leading scholars and clinicians.

The Injured Athlete-Daniel N. Kulund 1988

Hunting Nature-Thomas P. Hodge 2020-10-15 In Hunting Nature, Thomas P. Hodge explores Ivan Turgenev's relationship to nature through his conception, description, and practice of hunting—the most unquenchable passion of his life. Informed by an ecocritical perspective, Hodge takes an approach that is equal parts interpretive and documentarian, grounding his observations thoroughly in Russian cultural and linguistic context and a wide range of Turgenev's fiction, poetry, correspondence, and other writings. Included within the book are some of Turgenev's important writings on nature—never previously translated into English. Turgenev, who is traditionally identified as a chronicler of Russia's ideological struggles, is presented in Hunting Nature as an expert naturalist whose intimate knowledge of flora and fauna deeply informed his view of philosophy, politics, and the role of literature in society. Ultimately, Hodge argues that we stand to learn a great deal about Turgenev's thought and complex literary technique when we read him in both cultural and environmental contexts. Hodge details how Turgenev remains mindful of the way textual detail is wedded to the organic world—the priroda that he observed, and ached for, more keenly than perhaps any other Russian writer.

Return to Willow Lake-Susan Wiggs 2013-02-26 When her mother, who is unexpectedly pregnant, receives a devastating diagnosis, Sonnet Romano must decide what really matters in life and, putting her career on hold, stays in Avalon and takes a job that forces her to work alongside her biggest mistake—award-winning filmmaker Zach Alger.

Assignment Problems, Revised Reprint-Rainer Burkard 2012-10-31 Assignment Problems is a useful tool for researchers, practitioners and graduate students. In 10 self-contained chapters, it provides a comprehensive treatment of assignment problems from their conceptual beginnings through present-day theoretical, algorithmic and practical developments. The topics covered include bipartite matching algorithms, linear assignment problems, quadratic assignment problems, multi-index assignment problems and many variations of these. Researchers will benefit from the detailed exposition of theory and algorithms related to assignment problems, including the basic linear sum assignment problem and its variations. Practitioners will learn about practical applications of the methods, the performance of exact and heuristic algorithms, and software options. This book also can serve as a text for advanced courses in areas related to discrete mathematics and combinatorial optimisation. The revised reprint provides details on a recent discovery related to one of Jacobi's results, new material on inverse assignment problems and quadratic assignment problems, and an updated bibliography.

The Search for a Unified Korea-Eui-Gak Hwang 2010-03-11 North Korea's brinkmanship diplomacy has continued to disturb the world with its seemingly reckless missile testing, as the country's leader, Kim Jong-Il, is rumored to be terminally ill with pancreatic cancer. North Korea appears to be in a state of serious internal crisis not only because its dictatorial system, albeit skillful and ruthless leadership, is inherently unstable, if not skillful and ruthless leadership, but also because the main pillar of Kim Jong-Il's legitimacy is rapidly eroding due to both mass starvations and the exodus of grassroots and mass exodus of the North Korean people into nearby regions. The main objective of this book is to explore the probability of North Korea's implosion, and second to search for a feasible way for Korean reuni?cation as a possible consequence of a big bang event on the peninsula. The geopolitics of the Korean Peninsula is historically very complicated as Korea is bordered and s- rounded by four big powers; namely, China, Russia, Japan, and the United States. Each country has its own varying degrees of political, economic, and military stakes with respect to the Korean Peninsula. Thus, the Land of the Morning Calm has remained divided since 1945 mainly as a result of the domain war among these super powers. As the North nears a turning point, however, there is a new possibility for the two Koreas to reunite if the international environments work in their favor, and if both countries are well prepared to assume reuni?cation.

I Remember Bob Collins-Vicki Quade 2012-03-30 For over a decade, Chicagoans woke up to Bob "Uncle Bobby" Collins on their radio. The WGN-AM 720 morning radio host's death brought an outpouring of emotion and tears as Chicagoans sought to share their grief. Noted for his folksy radio personality, Collins was as genuine as he seemed and a friend with many. His charitable works, especially with the Salvation Army and WGN's Neediest Kids Fund, were unmatched. Every morning, Uncle Bobby is missed in Chicago. I Remember Bob Collins is a collection of anecdotes about the legendary broadcaster from his friends, fans, fellow broadcasters, and the media. Some notable figures include Wally Phillips, former governor Jim Edgar, Chicago mayor Richard Daley, Tom Collins, as well as many others who share their memories of Bob Collins.

Sustainable Management of Luxury-Miguel Angel Gardetti 2017-02-23 As this book is the first book worldwide in the "sustainable" management of luxury area, it highlights key aspects in the sustainable management of luxury based on presentations using different approaches, whether reflexive, empirical, hands-on or applied theory and cases.

I Shall Not Hate-Izzeldin Abuelaish 2011-01-04 By turns inspiring and heart-breaking, hopeful and horrifying, I Shall Not Hate is Izzeldin Abuelaish's account of an extraordinary life. A Harvard-trained Palestinian doctor who was born and raised in the Jabalia refugee camp in the Gaza Strip and "who has devoted his life to medicine and reconciliation between Israelis and Palestinians" (New York Times), Abuelaish has been crossing the lines in the sand that divide Israelis and Palestinians for most of his life - as a physician who treats patients on both sides of the line, as a humanitarian who sees the need for improved health and education for women as the way forward in the Middle East. And, most recently, as the father whose daughters were killed by Israeli soldiers on January 16, 2009, during Israel's incursion into the Gaza Strip. His response to this tragedy made news and won him humanitarian awards around the world. Instead of seeking revenge or sinking into hatred, Abuelaish called for the people in the region to start talking to each other. His deepest hope is that his daughters will be "the last sacrifice on the road to peace between Palestinians and Israelis."

Sydney Smith-George William Erskine Russell 2019-12-23 "Sydney Smith" by George William Erskine Russell. Published by Good Press. Good Press publishes a wide range of titles that encompasses every genre. From well-known classics & literary fiction and non-fiction to forgotten—or yet undiscovered gems—of world literature, we issue the books that need to be read. Each Good Press edition has been meticulously edited and formatted to boost readability for all e-readers and devices. Our goal is to produce eBooks that are user-friendly and accessible to everyone in a high-quality digital format.

Alan Garner's Book of British Fairy Tales-Alan Garner 1984 A collection of twenty-one traditional tales from the British Isles.

Rejoice, All Ye Believers- 2016-09 With varied stopped techniques and melodic material in both the treble and bass bells, your ringers will remain engaged from start to finish of this exuberant setting of the Swedish tune. Sundays concerning the second coming of Christ will particularly benefit from this piece.

Mortimer Revealed-Asphyxia 2014-10 The next magnificent adventure for Martha Grimstone. Discover the secrets that lie in Mortimer's crypt, in this sweetly gothic fairy tale told in a collage of words, photos, and drawings Hello, I'm Martha Grimstone, sometimes known as the Magnificent Lady of the Upside-down Writing Act. When I'm not in the mulberry tree, I live with my family in a broken old house built by my Grimstone ancestors. My father died when I was a baby, but Mama and Grandpa Grimstone refuse to speak of him. I'm determined to find out what really happened. Luckily, Crumpet promises to unlock the door to all our family secrets. He's my baby brother, and he finds a touch of magic at every turn. Mortimer Revealed is a gothic fairy tale about a magical doll's house, a valley full of thirsty herbs, and a departed father who had a magnificent hidden talent of his own.

Algoma-Dani Couture 2011 A year after watching Leo go through thin ice, twelve-year-old Ferd is obsessed with the idea that he can persuade hisdead brother to come home through a campaign of letters.Plaintive notes appear around the house—folded squaresof paper in the rain reservoir, kitchen sink, and washingmachine. Ferd's mother, Algoma, is also unravelling;attempting to hide her son's letters, reconnect with herincreasingly distant husband, and rebuild her life.

Mad Cows and Milk Gate-Virgil Hulse 2019-10-02 Former dairy inspector and board certified in Family Practice and Public Health, Dr. Hulse expresses concern over the rampant diseases in dairy cows, and the problems that treatments cause. There is overwhelming evidence that an epidemic of diseases are lying in wait behind the plastic wrap and dairy cartons of our food stores.

Mobile Learning in Higher Education in the Asia-Pacific Region-Angela Murphy 2017-07-06 If mobile technologies are to be effectively used in education, how do we best implement sustainable mobile solutions for teaching and learning? The aim of this handbook is to support educators and policy makers who are investing in innovations in digital education to develop effective and sustainable mobile learning solutions for higher education environments. Authors from sixteen countries across the Asia-Pacific region have collaborated to share their experiences with developing and implementing mobile learning initiatives. These projects focus on a variety of aspects of mobile learning innovation, from the trial adoption of existing social media platforms on mobile devices and the development of specialised applications or mobile learning systems, to the large-scale, interuniversity implementation of technologies and pedagogies to support mobile learning. Each chapter addresses challenges and solutions at one or more levels of mobile learning innovation within the education system, encompassing the student perspective, the educator perspective, technical processes, policies and organisational strategy, and leadership. The book also offers a unique perspective on the integration of mobile learning innovations within the educational, political and cultural environments of Asia-Pacific countries.

Uncertainty and Environmental Decision Making-Jerzy A. Filar 2010-05-03 The 21st century promises to be an era dominated by international response to c- tain global environmental challenges such as climate change, depleting biodiversity and biocapacity as well as general atmospheric, water and soil pollution problems. Consequently, Environmental decision making (EDM) is a socially important ?eld of development for Operations Research and Management Science (OR/MS). - certainty is an important feature of these decision problems and it intervenes at very different time and space scales. The Handbook on “Uncertainty and Environmental Decision Making” provides a guided tour of selected methods and tools that OR/MS offer to deal with these issues. Below, we brie?y introduce, peer reviewed, chapters of this handbook and the topics that are treated by the invited authors. The ?rst chapter is a general introduction to the challenges of environmental decision making, the use of OR/MS techniques and a range of tools that are used to deal with uncertainty in this domain.

School and Community Relations-Edward H. Moore 2013-08-02 For prospective and current educational administrators learning about school and community relations. A well-researched text that presents school officials with

information on how to establish effective relationships in the school community. This best-selling text provides school officials with a practice guide to successfully implementing effective communication with their staff and the community - while also providing readers with the research that explains how each strategy will improve school quality, community participation, and student learning. The School and Community Relations is organized in such a way that students learn how to establish a working community relations program in an easy-to-understand and step-by-step fashion. In addition, the text's authors are comprised of experienced practitioners and educators that have gained their knowledge and tested their strategies in school systems around the country.

Science, Grade 4-Jay K. Hackett 2011-12-08

The Car Book-Jack Gillis 2003 Provides information on fuel economy, safety, maintenance cost, warranties, insurance, and tires for new cars.

Student's Guide to Operations Research-Paul A. Jensen 1986

Picturesque Bermuda-Don McGregor 2002

Parametric Optimization-Jürgen Guddat 1990-12-21 Explores optimization problems in which some or all of the individual data involved depends on one parameter. Beginning with a preliminary survey of solution algorithms in one-parametric optimization, the text moves on to examine the pathfollowing curves of local minimizers, pathfollowing along a connected component in the Karush-Kuhn-Tucker set and in the critical set, pathfollowing in the set of local minimizers and in the set of critical points. In addition, practical applications are included.

Island 148-Vern Field 2017-02-27
