White Bicycles-Joe Boyd 2010-07-09 When Muddy Waters came to London at the start of the '60s, a kid from Boston called Joe Boyd was his tour manager; when Dylan went electric at the Newport Festival, Joe Boyd was plugging in his guitar; when the summer of love got going, Joe Boyd was running the coolest club in London, the UFO; when a bunch of club regulars called Pink Floyd recorded their first single, Joe Boyd was the producer; when a young songwriter named Nick Drake wanted to give his demo tape to someone, he chose Joe Boyd. More than any previous '60s music autobiography, Joe Boyd's White Bicycles offers the real story of what it was like to be there at the time. His greatest coup is bringing to life the famously elusive figure of Nick Drake - the first time he's been written about by anyone who knew him well. As well as the '60s heavy-hitters, this book also offers wonderfully vivid portraits of a whole host of other musicians: everyone from the great jazzman Coleman Hawkins to the folk diva Sandy Denny, Lonnie Johnson to Eric Clapton, The Incredible String Band to Fairport Convention.

Eminent Hipsters-Donald Fagen 2013-10-22 A witty, candid, sharply written memoir by the cofounder of Steely Dan In his entertaining debut as an author, Donald Fagen—musician, songwriter, and cofounder of Steely Dan—reveals the cultural figures and currents that shaped his artistic sensibility, as well as offering a look at his college days and a hilarious account of life on the road. Fagen presents the “eminent hipsters” who spoke to him as he was growing up in a bland New Jersey suburb in the early 1960s; his colorful, mind-expanding years at Bard College, where he first met his musical partner Walter Becker; and the agonies and ecstasies of a recent cross-country tour with Michael McDonald and Boz Scaggs. Acclaimed for his literate lyrics and complex arrangements as a musician, Fagen here proves himself a sophisticated writer with his own distinctive voice.

Bike Lanes Are White Lanes-Melody L Hoffmann 2016-07-01 The number of bicyclists is increasing in the United States, especially among the working class and people of color. In contrast to the demographics of bicyclists in the United States, advocacy for bicycling has focused mainly on the interests of white upwardly mobile bicyclists, leading to neighborhood conflicts and accusations of racist planning. In Bike Lanes Are White Lanes, scholar Melody L. Hoffmann argues that the bicycle has varied cultural meaning as a “rolling signifier.” That is, the bicycle’s meaning changes in different spaces, with different people, and in different cultures. The rolling signification of the bicycle contributes to building community, influences gentrifying urban planning, and upholds systemic race and class barriers. In this study of three prominent U.S. cities—Milwaukee, Portland, and Minneapolis—Hoffmann examines how the burgeoning popularity of urban bicycling is trailed by systemic issues of racism, classism, and displacement. From a pro-cycling perspective, Bike Lanes Are White Lanes highlights many problematic aspects of urban bicycling culture and its advocacy as well as positive examples of people trying earnestly to bring their community together through bicycling.

Scar Tissue-Anthony Kiedis 2004-10-01 In this "vivid and inspiring" NYT bestseller (Newsweek), the Red Hot Chili Peppers' lead singer and songwriter shares a searingly honest account of life in the rock scene's fast lane -- from the darkness into the light. In 1983, four self-described "knuckleheads" burst out of the mosh-pitted mosaic of the neo-punk rock scene in L.A. with their own unique brand of cosmic hardcore mayhem funk. Over twenty years later, the Red Hot Chili Peppers, against all odds, have become one of the most successful bands in the world. Though the band has gone through many incarnations, Anthony Kiedis, the group's lyricist and dynamic lead singer, has been there for the whole roller-coaster ride. In Scar Tissue, Kiedis delivers a compelling life story from a man "in love with everything" -- the darkness, the death, the disease. Even his descent into drug addiction was a part of that journey, another element transformed into art. Whether he's honoring the influence of the beautiful, strong women who have been his muses or remembering the roaring crowds of Woodstock and the Dalai Lama's humble compound, Kiedis shares a compelling story about the price of success and excess. Scar Tissue is a story of dedication and debauchery, of intrigue and integrity, of recklessness and redemption -- a story that could only have come out of the world of rock.

Remembered for a While-Nick Drake 2014-12-09 A vivid portrait of the English singer-songwriter and musician Nick Drake Nicholas Rodney "Nick" Drake was an English singer-songwriter and musician, known for his acoustic guitar-based songs. Drake released only three complete albums -- Five Leaves Left (1969), Bryter Layter (1970), Pink Moon (1972) -- and was not well known before his death in 1974. Yet he gained a massive posthumous following, inspiring leading musicians such as R.E.M.'s Peter Dinklage and Robert Smith of The Cure and bands such as Coldplay and The Black Crowes. Forty years after Nick's death, Remembered for a While peels back some of the mystery surrounding his life. The book will feature gorgeous color photographs, as well as original letters and interviews with family and friends. As Nick's sister writes in the introduction, Remembered for a While will reveal "the poet, the musician, the friend, the son, the brother, who was also more than all of these together, and as indefinable as the morning mist." At long last, Remembered for a While paints a portrait of a visionary musician who inspired a fanatical following and whose legacy continues to inspire future generations of musicians -- and the lives of his fans.

You Know What You Could Be-Mike Heron 2017-04-06 'Mike Heron, as part of the Incredible String Band, changed the way I looked at music. Read it!' Billy Connolly 'Mike Heron's lyrics always sparkled with wit and warmth and his

prose is a delightful continuation. The book evokes a smoky, unheated eccentric Edinburgh that was a crucible for so much creativity.' Joe Boyd, author of *White Bicycles* This singular book offers two harmonising memoirs of music making in the 1960s. Mike Heron for the first time writes vividly of his formative years in dour, Presbyterian Edinburgh. Armed with a love of Buddy Holly, Fats Domino and Hungarian folk music, he plays in school cloakrooms, graduates to rock, discovers the joy of a folk audience, starts writing songs, tries to talk to girls, wishes he was a Beatnik all while training as a reluctant accountant. When asked to join Robin Williamson and Clive Palmer, the Incredible String Band are formed - and their wildly innovative, astounding music became indelibly linked with the latter Sixties. Andrew Greig was a frustrated provincial schoolboy when he heard their songs. It changed everything. Undaunted by a lack of experience and ability, he formed a band in their image. Fate & Ferret populated back-country Fife with Pan, nymphs and Apollo, met the String Band and caught the fish lorry to London to hang around Joe Boyd's Witchseason office, watching at the fringes of the blooming Underground scene. It was forty years later that he and Mike became friends. These entwined stories will delight anyone who has loved the Incredible String Band; and their differing portraits of that hopeful, erratic and stubborn stumble towards the life that is ours will strike a chord with everyone.

Black and White Like You and Me-Thomas F. Daniels 2017-02-02 Even in 1960s Detroit, race isn't everything. Tom Daniels and "Cookie" Marsh will be the first to tell you that race isn't everything. But it did shape the way they experienced the world growing up in Detroit in the 1950s and 60s. Tom "Cookie" Marsh grew up in a black neighborhood on Detroit's west side. Tom Daniels grew up in a mixed, working-class neighborhood on Detroit's east side. Both men grew up in strict households where they "always got what we needed, and sometimes what we wanted" and both saw their city, their country, and their world transform around them through the Civil Rights movement, riots, and the Viet Nam War. But sometimes parallel lines intersect. As each man tells his story, it is apparent that race isn't just "black and white" but it is part of what makes their friendship extraordinary. Their experiences will show you that race made for huge differences in their experiences, while, in spite of race, there are also touching similarities that made it possible for two men, in their older years, to overcome decades of racial turbulence of their upbringing to become lifelong friends. Follow Tom and Cookie. Hear about their lives, their upbringing, their successes and regrets growing up in black and white Detroit - and how when it boils down to it, the things that are truly important are actually black and white, like you and me.

Riding Bike in the Fifties-Albert Drake 2012-08-23 First-hand accounts of riding & racing motorcycles in the 1950s. "Sometimes, on certain mornings in early fall, when there is a light fog and the air holds a hint of moisture, I can recall so clearly the sound of a single's exhaust." Thus begins this journey into memory, back to a time that has to be called the Golden Age of Motorcycles. British bikes--BSA, Triumph, AJS, Matchless, Norton, Velocette--had invaded roads and race tracks previously dominated by Harley-Davidson and Indian. In the open land surrounding cities bikers were blazing trails, making Hare and Hound courses. If there was a rule it was "run what ya brung," never mind about insurance, licenses, headlights, mufflers, crash helmets. There never was a time when so many were so free on two wheels.

48 Mountains-Dendrologist Forest Authority John White 2016-05-26 What starts out as a seemingly impossible dream conceived as a teenager, turns into John's personal quest to stand on top of the highest point of every state in the United States of America. He almost accomplished his dream, but on a high ridgeline on his 44th mountain, he was struck by a bolt of lightning in the midst of a freak storm. The fear that hit him at that moment prevented him from ever climbing another mountain again. Many challenges and obstacles faced John during his adventures, but he was always able to persevere until that fateful day on top of Utah when all his highpointing hopes and dreams were gone in a painful flash of light. This pain was not only physical, but played on his mental state as well. This dream that he had worked so hard for and spent so much time and energy on was taken away by fears he did not know he had; fears that were not understood. These fears brought White's highpointing dream to an abrupt end at the base of Borah Peak, Idaho's highest mountain just months after his terrifying experience. *48 Mountains* is the exhilarating story of his quest and a moving reflection on the nature of fear.

The Blue Goose and Me-Joe D. White 2013-04-03 The "Blue Goose and Me" follows the early career of Joe D. White with the U.S. Fish and Wildlife Service, National Wildlife Refuge System. Joe began his career with the National Wildlife Refuge System in 1961 as the assistant manager on Chassahowitzka National Wildlife Refuge on the central gulf coast of Florida where for two years he was introduced to the science and art of habitat and wildlife management, work that produced incredible experiences that accrue to working with wildlife populations and individuals. The next seven years saw him continue to hone his wildlife management skills as assistant manager on Reelfoot Refuge in northwest Tennessee, White River Refuge in east central Arkansas, and Wapanocca Refuge in northeast Arkansas. As an assistant manager on these wildlands and wildlife havens, most of his duties were performed outdoors, a fortunate circumstance that provided him the opportunity to participate in wildlife/nature adventures that the average citizen would find hard to believe.

Is the answer to their problems to be found within the world of science-fiction or are they setting themselves up for yet more grief and sadness? The Missing Years of Thomas Pritchard August 3rd. 6:03am. The tranquil summer's morning was shattered by the desperate screams of Thomas' mother echoing down the near deserted suburban street. The few people milling about outside getting ready for their daily business had said they couldn't make out what the cries were about when they were interviewed. Not initially. Not until Anne, a pretty woman in her early thirties with shoulder length blonde hair, spilled out onto the street wearing nothing more than her dressing gown and slippers anxiously calling out for her five year old son, Thomas, to come out from wherever he was hiding. Eye witnesses reported Anne was closely followed by her husband Bill - a professional, clean-shaven man in his late thirties with dark, short hair - half dressed for work in his suit trousers and unbuttoned white shirt, and that he too looked just as frantic as the mother did. The year was 2003; the year Thomas disappeared from his home without a trace. * * * * * August 3rd. 6:03am. A young, fragile looking hand knocked confidently on the white PVC of the front door to number twenty-two. The hand belonged to a smartly dressed, skinny fourteen year old, fresh-faced boy. Whilst waiting for an answer to his knocking he slid a brown leather satchel off his shoulder down onto the floor as though the weight was too much for him to bear any more. He went to knock again but stopped himself when he heard the sound of footsteps from the other side of the door as the freshly woken homeowner came to answer his initial knocking. There was the slightest of pauses as keys were twisted in locks before the door opened as much as the strong, gold, security chain would permit it to. "Can I help you?" asked the homeowner, a frail looking woman in her late sixties. "Where's my mum?" asked the boy. The year was 2012; the year Thomas came home.

The Bohemian Guide to Urban Cycling-Sean Benesh 2014-11-05 Cycling as a way of life and mode of transportation is on the rise in city after city around the world. For those looking to dip their proverbial toes into the waters of urban cycling the prospect at times can be rather intimidating. What kind of bike should I ride? A skinny-wheeled high-end road bike? A fixie? A chunky city commuter bike? A department store bike? How about fashion? Do I have to wear brightly colored skin-tight Lycra outfits? Can I just wear normal clothes? How do I lug my gear around? The Bohemian Guide to Urban Cycling takes the reader into the world and workings of cycling in the city to uncover the essentials to how to join in on the cycling revolution. Your bicycling guide on this journey is a card-carrying bohemian living in Portland. By using the bike-crazy city of Portland as the backdrop, this book covers all of the basics needed to bike comfortably in the city and to know what the heck you're talking about ... from bike selection to fashion to bike lanes to gentrification and more. After reading this you'll know precisely what to ride, how to ride, what to wear, and how to talk like an insider. Well, maybe not, but it'll still be a fun journey together. But this book is more than about urban-cycling fashion and high-end bikes. It also plunges headlong into conversations about mobility, equity, race, and justice. If there is going to be a book about all-things cycling in the city it must delve into these uncomfortable topics in order to develop a more holistic view of urban cycling. The bottom line must be to affirm all kinds of people pedaling through the streets of our cities on anything that rolls.

Stuck in My Head-Michael Dane 2017-10-15 A lifelong dabbler in music, Michael Dane is also out of his mind. In this affectionately satirical memoir, you get a comedy crash course in music appreciation, from Bach to Bonnaroo. "Stuck" also chronicles the author's mental quirks, from OCD to anxiety disorder. The premise is simple: Everyone's crazy, crazy is funny, and whatever brand of crazy you have, there's probably a playlist for it. The book has playlists for losing your grip and for finding your way back. You'll also learn how to remove an earworm, why karaoke isn't necessarily evil, and how to avoid making Dizzy Gillespie angry. Dane, author of "Does This Taste Funny?," also interviews a

fictional eighteenth century composer, a piano tuner with a penchant for destroying pianos, a legendary sixties icon, two accordionists, a hip-hop harpist, and his high school band director. No matter what style of music moves you, this book probably covers it, and whatever the state of your mental health, "Stuck In My Head" will have you laughing like a crazy person.

We Can Be Who We Are: Movie Musicals from the '70s-Lee Gambin 2015-08-08 The movie musical has been a much loved genre since motion pictures found a voice and learned to sing. Throughout the decades, audiences thrilled to the glamour of the musicals of Busby Berkley and were emotionally invested in stories about Austrian nuns and the King of Siam with the musicals from Rodgers and Hammerstein. With the advent of Rock 'n Roll, Heavy Metal, R&B, Motown, Punk Rock, and Disco entering the public consciousness, musicals started to sing a very different tune. Into the 1970s, the movie musical became a daring, dangerous, and divinely decedent cinema experience. Lee Gambin's We Can Be Who We Are: Movie Musicals from the 1970s explores this explosive energy and diversity. From the quirky sophistication of On A Clear Day You Can See Forever and the dark unnerving genius of Cabaret to the sweet sentimentality of Charlotte's Web, Gambin's book offers insightful film criticism while exhaustively covering the decade. Some of the films Gambin examines include Phantom of the Paradise, Grease, The Wiz, Rock'n'Roll High School, Bedknobs and Broomsticks, All That Jazz, Godspell, Hair, The Rose, Saturday Night Fever, The Rocky Horror Picture Show, Willy Wonka and the Chocolate Factory, Pete's Dragon, Tommy, Kiss Meets The Phantom of the Park, and many, many more.
