Written by two leaders in the growing field of impact investing, the book defines this emerging industry for participants on all sides of the funding equation (investors, funders and social entrepreneurs). Filled with illustrative examples of impact investing success stories Reveals how the field can expand in order to address the most critical social and environmental issues of our day Explores the wide-ranging applications of impact investing as well as entrepreneurial opportunities The authors do not take a normative approach to argue how investors should behave like an investment guide might but show how entrepreneurial people and institutions are already offering an integrated alternative.

This is the story of the plotting, the risk-taking, the deceit, and genius that created the world's most formidable weapon. This is the story of the atomic bomb. Bomb is a 2012 National Book Awards finalist for Young People's Literature. Bomb is a 2012 Washington Post Best Kids Books of the Year title. Bomb is a 2013 Newbery Honor book.

His father has gone to work in the city, leaving him in the care of his three elderly aunts, who give him his freedom to distract himself by the lake where he lives. In this lake, Milo discovers a fish egg of unusual size, and when it hatches, a magnificent golden fish is born. Milo is only half surprised when strange creatures, including a toad man, become interested in his secret discovery. He soon meets and frees a fiery young girl named Valia, who was held prisoner by the toad man, and the two are forced to flee, guided by the golden fish, to "the other side" of the lake . . . the flip side underneath, one of many parallel worlds that are connected through the lakes, rivers, and oceans. In this parallel universe, an evil wizard wields power, driven by blind vengeance, with the toad man does his bidding. Milo finds himself the subject of fascination, fear, and excitement by the elf-like population, who aren't sure what to do with him, until he sets out on an adventure to protect them from the evil wizard. Along the way, he finally encounters his mother, who turns out to be a sorceress from this world, and the polar opposite power of the evil wizard. He's the lost scion of a new generation and wizards, and he never knew it (even though his three aunts and the golden fish did). Milo is the key in this battle; if the wizard manages to capture him, there will be no more opponents in the world on this side of the lake, meaning he could extend his domination and carry it even further, leading the conquest of the multiple parallel universes . . .
